

CONTOURS PRODUCT SPECIFICATIONS

ISTHMUS LINX7821

Inspired by the scalloped, sandy curves leading to Barrenjoey Head in New South Wales, Porta Contours in Isthmus add natural warmth, texture and movement to any room.

Designed with a fine scalloped profile, Contours Isthmus brings sophistication and texture into play, whatever space it is applied to. It uses sustainably sourced Tasmanian Oak (PEFC certified) and Clear Pine (FSC® certified), offering two beautiful aesthetic choices within this profile.

With its consistent tongue and groove join, Isthmus can be used in conjunction with any other Contours profile to create a unique design for residential and commercial interiors.
